Dear Tim,

It was good to hear from you, and I hasten to send what I can from my files. The enclosed is from the BOSTON GLOBE MAGAZINE, but from ~~what~~ ^{that} I have a single article not continued. I remember some mimeoed sheets from your life that I think Joanna gave to me, the most interesting part ^{being} the account of your tribulations at West Point. However, an hour's rummaging in the attic has not turned that up which, if found, I would also have sent to you. I believe I gave it to Harper & Row to look over. I recall they were encouraging though they may have sent it back to me, and I could have loaned it to someone and then forgotten who it was. But I think the GLOBE article is more likely to be what you have in mind. *I recall much material relating your encounters with Hauchard & other matters.*

I am glad to hear that you are hitting the more visible publishers, for you have much to say that the general public should hear. Also I am very glad to hear that THE AUTOBIOGRAPHY OF TIMOTHY LEARY is beginning to be cooked. As Harvey Cox remarked to me recently you have been involved in so many of the important historical developments of the last two decades that your involvement in them should be defined. I had a good telephone visit with Dick Alpert the other day and his response to my comment that I had enjoyed Marilyn Ferguson's AQUARIAN CONSPIRACY, an otherwise lively account of new developments in our times, was that he criticized her ~~for~~ for leaving your name out!

We enjoyed seeing you when you were in Boston and are glad to hear that you may be coming through this summer. By all means get in touch with us when you do. Our telephone ~~here~~ is 617-969-6077, and if we are in New Hampshire it is R.F.D. #1, Wolfeboro 03894, tel. 603-569-2622.

Love from both of us,
Affectionately,
